

## Stop Thief [Libby Hammer]

Stop right there and don't you try to run  
Drop your gun and hands up in the air  
Where I can see them, no use resisting arrest  
Since I saw you I can't forget you so I have just one request

Freeze, don't move, there's no way you can win  
Please give in, I know that I can prove that you want me  
Come on no honey, confess  
We're alone so no-one can help you or hear your SOS

You'd better wipe that cheeky smile off your face  
And wipe it right onto mine  
That your lips and my lips haven't yet met, it's a crime

So make my day, surrender to a frisk  
Take a risk or do we have to play cat and mouse here  
For honey it's my belief that we never can part because  
You stole my heart after you picked up my handkerchief  
Stop Thief

### INSTRUMENTAL

You have the right to stand in silence  
The right to make yourself perfectly clear  
If I have the right to hold it against you  
Then you have the right idea

So make my day, surrender to romance  
Take a chance and mend your wayward ways  
I'll forgive you, turn over a brand new leaf  
Just return all my love and you'll surely discover  
Your fate will be quite a relief  
Stop Thief
